The terminal time will start upon resolution of the Trouble Ticket.

NYTC may deny payments of detention penalties to truckers, who on a regular basis, fail to pre-check prior to the arrival at terminals, or fail to follow terminal procedures which result in delays to themselves or other truckers.

Detention payments will not be paid to motor carriers arriving at the terminal facility with a bare chassis upon which they request a container, which is already on a chassis, to be placed unless the terminal operator shall have been notified of the intended method of removal of the container from the terminal facility prior to the vessel's discharge.

Detention payments will not be paid to motor carriers requiring genset mounting/dismounting to or from a container whether the container is full or empty.

Detention payments will not be paid with respect to any transaction if the motor carrier requests clerical assistance for such transaction. This includes transactions which may require such assistance, e.g. documentation for hazardous cargo and motor vehicles.

New York Terminal Conference	Page 14 of 50

If any employee, agent or representative of a Motor Carrier (or any other person with actual or implied consent of the Motor Carrier) is found to have stolen, pilfered or vandalized and chassis component(s) or other property belonging to the terminal operator., its customers or other persons present on the terminal with the consent of the terminal operator the Motor Carrier will be held fully responsible for the cost of repairing or replacing said equipment. The Motor Carrier will also forfeit its ability to submit any invoicing pertaining to trucker detention at the terminal.

However, there shall be no penalties paid for detentions of less than twenty-nine (29) minutes. False or unsubstantiated claims for detention reimbursements filed by a motor carrier are subject to a \$62.70 processing fee per each occurrence to such motor carrier and denial of claim.

Claims shall be filed within thirty (30) calendar days from the date on which the claim arose or said claim shall be barred.

Wherever rates in this schedule are based upon cargo being palletized, preunitized or skidded, said rates are applicable in the case of truck unloading only if the cargo is situated on the truck so the terminal's forklift truck blades may be directly inserted without any necessity of shifting cargo prior to such insertion. If the cargo is not so situated on the truck, triple the truck unloading rates will be charged. Cargo must be deemed suitable for safe handling.
